

A human approved the title

This contract follows the marketplace handoff. One human decision is recorded inside a Wedding Planner workspace that is already open. A discovered business is not opened. Conversation AI stays closed. Bliss hosted acceptance and Economics Phase 9 stay on their own paths.

Campaign ready is refused. No price is invented. Six roles are not called. A match is not written. Green does not send. Delivery remains NOT_SENT.

What was proved

Reading	Result
Sunrise Wellness Co.	Title Table card. Status HUMAN_APPROVED. Actor OPERATOR. Campaign ready no. Match written no. Price invented no. Model calls 0. Delivery NOT_SENT.
Conversation	The Sunrise workspace shows the stored note Sunrise private note. That note is a human message, not a generated reply.
Audit	CREATIVE_DECIDED by OPERATOR. Outcome HUMAN_APPROVED. The same decision was not written again.
TEST Dental Manila	No creative decision, no conversation, and no creative audit. The Sunrise note is not shown.
Workspace list	Sunrise Wellness Co. and TEST Dental Manila. Casa Verde and Mesa Norte are not listed. The match list stayed at 7.

The operations page is /operations#/creative. The contract is docs/architecture/contracts/CREATIVE-APPROVAL-CONTRACT.md. Sunrise Wellness Co. and TEST Dental Manila are fixtures. They are not claims about real businesses.

Verification

```
dotnet test Bliss.Tests/Bliss.Tests.csproj --verbosity minimal
```

402 passed, 0 failed, 0 skipped. The new proofs are CreativeApprovalTests and CreativeApprovalApiTests.

The browser recording shows the human approval, the refusal to record it again, and the empty Dental Manila workspace. Nothing was sent.

What this does not authorize

- Conversation AI, or six roles treated as six model calls.

- Opening Wedding Planner for a discovered business.
- Campaign ready, a match write, or an invented price.
- A live send or a new subscription.
- Hosted Bliss acceptance or Economics Phase 9.

The next priorities stay closed until each one has its own contract.
