

CONSOLIDATED ACADEMY + CATALOG READINESS REPORT

As of: 2026-10-07

Scope: Creative Academy references, Advertising Real Estate catalog, recommended geometry, joint acceptance, and deferred Harborlight voyage

Verification: 522 tests passed, 0 failed, 0 skipped

EXECUTIVE RESULT

The approved source records are working together without inventing missing commercial or production facts.

All 50 Academy references are uploaded and ACTIVE.

The used-car prototype is stored as ACA-005-V1.

Every reference has approved LEARN and DO NOT COPY notes, provenance, rights, and approval metadata. Provider use remains NOT_AUTHORIZED.

Creator authorization, device/platform approval, four catalog products, and three sellable showcase illustrations are stored.

ARE-GEO-V1 records owner-authorized recommended 1920 x 1080 slot geometry.

Pharmacy reference retrieval is RETRIEVED.

ARE-P01 inventory adaptation is RECOMPOSED.

The system makes zero model calls in this reading, does not mark a campaign ready, and records no delivery.

The consolidated status remains BLOCKED. This is correct: geometry and reference gates are ready, but Economics, provider configuration, visual QA, human review, cost, regression baselines, delivery proof, and hosted acceptance are not complete.

RECORDED ACADEMY APPROVALS

Registered references: 50 of 50

Uploaded references: 50 of 50

ACTIVE references: 50 of 50

Used-car reference: ACA-005-V1, uploaded and ACTIVE

LEARN notes: supplied

DO NOT COPY notes: supplied

Rights/provenance: owner upload and ownership recorded

Academy use: approved 2026-10-07

Provider use: NOT_AUTHORIZED

Quality grades: UNCLASSIFIED

VidaCare is attached to pharmacy, FreshMart to supermarket, Nova Fit to fitness, Taller Ruta to automotive service, and Brava Moto to motorcycle. Catalog.jpeg remains the educational catalog overview. The seven podcast-with-ads images remain placement illustrations and do not define Academy niches or geometry.

RECORDED CATALOG APPROVALS

Creator authorization: recorded

Device status: OWNER_APPROVED

Platform status: OWNER_APPROVED

Products: ARE-P01, ARE-P02, ARE-S01, and ARE-E01 are ACTIVE

Sellable showcases: ARE-001-V1, ARE-002-V1, and ARE-003-V1 are ACTIVE

Educational guide: ARE-GUIDE-001-V1 remains DRAFT and non-authoritative

Economics: NO_AUTHORIZED_PRICE

Campaign ready: false

Delivery: NOT_SENT

RECOMMENDED GEOMETRY

ARE-GEO-V1 is an owner-authorized recommendation for a 1920 x 1080 canvas. It is not measured from the guide or showcase artwork. Products use alternative slot combinations; every slot is not occupied simultaneously.

LEFT_VERTICAL: 320 x 1080; origin 0, 0; area 345600

RIGHT_VERTICAL: 320 x 1080; origin 1600, 0; area 345600

TOP_LEFT: 640 x 180; origin 320, 0; area 115200

TOP_RIGHT: 640 x 180; origin 960, 0; area 115200

BOTTOM_LEFT: 640 x 180; origin 320, 900; area 115200

BOTTOM_RIGHT: 640 x 180; origin 960, 900; area 115200

BOTTOM_FULL: 1280 x 180; origin 320, 900; area 230400

Every stored area equals width x height, and every rectangle fits within the canvas.

CONSOLIDATED ACCEPTANCE READING

Academy reference intelligence: READY

Sample retrieval: RETRIEVED

Inventory geometry: RECORDED

ARE-P01 adaptation: RECOMPOSED

Creator and platform: recorded

Economics: NO_AUTHORIZED_PRICE

OpenAI/provider configuration: PROVIDER_CONFIGURATION_REQUIRED

Visual quality QA: required; not run

Human review: required; not requested

Usage cost: unrecorded

Regression baselines: BASELINE_NOT_RECORDED

Hosted acceptance: UNCLAIMED

Proof of delivery: not recorded

Campaign ready: false

Delivery: NOT_SENT

Catalog amendment: OPEN

Academy amendment: OPEN

The Harborlight request stops before generation because provider configuration and credits are deferred. No reference asset was sent to a provider, no finished creative was substituted, and no cost or acceptance was invented.

END-TO-END TEST

CatalogEndToEndApiTests walks one operator path against the stored records.

1. Load the catalog and confirm geometry RECORDED, 50 ACTIVE references, and creator authorization.
2. Serve ACA-005-V1.png, ARE-001-V1, and ARE-003-V1.
3. Ask all seven catalog questions and write each reply to the conversation ledger.
4. Adapt an original Norte Salud identity into LEFT_VERTICAL 320 x 1080 and BOTTOM_FULL 1280 x 180.
5. Reject a copied VidaCare identity with REGENERATE.
6. Read joint acceptance.
7. Start the Harborlight voyage and stop before generation.

Lower budget: ENTRY; ARE-S01 and its showcase displayed; no price.

Premium: PREMIUM; premium products and showcases displayed; no price.

Exclusivity: EXCLUSIVITY; exclusive products displayed; exclusivity not promised.

Mobile: DEVICE; stored OWNER_APPROVED status; no showcase.

Twenty displays: FREQUENCY; 20 occurrences recognized; no price.

Proof of delivery: DELIVERY; no impressions invented.

Unauthorized request: UNSUPPORTED; escalated; no product or price invented.

Conversation ledger: 7 rows, all NOT_SENT.

Adaptation: RECOMPOSED.

Copied identity: REGENERATE.

Joint acceptance: BLOCKED, retrieval RETRIEVED, adaptation RECOMPOSED.

Harborlight voyage: BLOCKED at PROVIDER_CONFIGURATION_REQUIRED.

The offer questions display stored showcase images. Device, frequency, and delivery questions do not, because they are not offers. Every turn records geometry RECORDED, zero model calls, campaign ready false, and delivery NOT_SENT.

TESTING

ConsolidatedReadinessApiTests reads the blueprint, joint acceptance, and deferred voyage together. CatalogEndToEndApiTests adds the seven-question conversation, image serving, ledger, adaptation, and originality checks.

Command: dotnet test BlissBotChapel.sln --no-restore

Passed: 522

Failed: 0

Skipped: 0

REMAINING WORK

1. Record authorized Economics prices for ARE-P01, ARE-P02, ARE-S01, and ARE-E01.
2. Record authorized pricing for duration or occurrence changes; 15 seconds remains stored and unpriced.
3. Add OpenAI billing credits and rotate the temporary key before configuring the provider.
4. Run the live Harborlight generation only after provider configuration is approved.
5. Perform visual QA and human review on an actual finished creative.
6. Record actual provider usage and cost.
7. Establish and pass regression baselines.
8. Grade Global Quality DNA attributes where a human has evidence; blanks remain UNCLASSIFIED.
9. Record proof of delivery only after a display actually happens.
10. Record hosted acceptance separately.
11. Keep both amendments OPEN until their remaining evidence is reviewed.

CONCLUSION

The Academy and catalog now have a tested, internally consistent readiness chain through reference retrieval and inventory recomposition. They do not yet have a completed production voyage. The fail-closed BLOCKED, NOT_SENT, and UNCLAIMED results are part of the successful test outcome, not failures to be hidden.
