

Measure the ladder. Do not claim it.

The rungs 100, 1,000, and 10,000 are repeated in-memory checks of the recipe and the conversation. Each rung passed. Each rung is marked not claimed. A passed check is not a claim of stored prospects or sends. No dollar amount is recorded. None was invented. The 15-minute factory target is not claimed. Delivery remains NOT_SENT. AI calls stay at 0.

What the page shows

- 100, 1,000, and 10,000 checks passed.
- The claim column says not claimed on every rung.
- Mesa Norte stays DEMONSTRATION_PREPARED. The same 19 production events remain. Production was not changed.
- The automated suite passed 305 tests.

The next gap is green, yellow, and red progression on the prospect. That phase is not started.

SCALE PROOF

Measure the ladder. Do not claim it.

The rungs 100, 1000, and 10000 are repeated in-memory checks. A passed check is not a claim of stored prospects or sends. Delivery remains NOT_SENT. AI calls 0.

Rung	Measured	Checks	Claim	Check milliseconds
100	100	Passed	Not claimed	1
1000	1000	Passed	Not claimed	38
10000	10000	Passed	Not claimed	171

No dollar amount is recorded. None was invented.

The 15-minute factory target is not claimed. This measurement excludes discovery, enrichment, sending, premium creative, and final campaign production.

Mesa Norte stays DEMONSTRATION_PREPARED. Delivery remains NOT_SENT. Production was not changed.
